PROFESSIONAL SUMMARY

Self-taught Full Stack Web Developer with hands-on experience building secure web applications using HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, Mongoose, bcrypt, and Express Sessions. Experienced in authentication systems, CRUD operations, REST-style routing, and responsive interfaces. Seeking a remote paid internship where I can contribute to real-world software projects while continuing my journey toward AI application development.

CORE TECHNICAL SKILLS

Category	Skills
Frontend	HTML5, CSS3, JavaScript (ES6), DOM
Backend	Node.js, Express.js
Database	MongoDB, Mongoose
Security	bcrypt, Express Sessions
Tools	Git, GitHub, npm, VS Code

PROJECTS

- NOVARYN AI Portal — Registration, login, bcrypt hashing, session authentication, protected dashboard, CRUD operations, MongoDB integration.
- Weather App — Weather API, search, error handling, responsive interface.
- Movie Search App — API integration with dynamic movie results.
- JavaScript Chatbot — Interactive chatbot UI using DOM.
- To-Do Manager — Persistent task manager with Local Storage.
- Student Management System — Python console application.

EDUCATION

Bachelor of Science in Computer Science (Incomplete - Studied up to 2nd Semester)
FSc (Pre-Medical)

CERTIFICATIONS

DigiSkills Artificial Intelligence using Python (In Progress)
DigiSkills Mobile Game & App Development (Flutter) (In Progress)

STRENGTHS

- Problem Solving
- Fast Learner
- Communication
- Teamwork
- Continuous Learning

CAREER OBJECTIVE

To secure a remote paid internship where I can apply my full-stack development skills, gain professional experience, and build toward my long-term goal of founding NOVARYN, an AI software company.
